

TR200 Quick Ship Program

Product Included

The quick ship program is limited to NEMA 1 drives with fused disconnects. The table below shows the qualifying ordering codes by HP and voltage class:

HP	200-230V ordering code	Continuous Amps Output	460V ordering code	Continuous Amps Output	600V ordering code	Continuous Amps Output
5	131L1510	16.7	131L1537	8.2	131L2096	6.1
7.5	131L1731	24.2	131L1538	11	131L2099	9
10	131L1514	30.8	131L1541	14.5	131L2100	11
15	131L1515	46.2	131L2159	21	131L1940	18.4
20	131L1518	59.4	131L1854	27	131L1941	22
25	131L1519	74.8	131L2163	34	131L2115	27
30	131L1523	88	131L2164	40	131L2116	34
40	131L1524	115	131L2167	52	131L2123	41
50	131L1527	143	131L2168	65	131L2131	52

How it works

To order one of the above ordering codes for quick ship, contact Customer Service at 800.621.8806 to first verify availability. The CSO price for a quick ship drive is 0.48 x the list price. List prices are on page 7 of the TR200 price list.

If the required drive(s) are in stock, and the order is received by 1pm, the drive(s) ship the same day. In the event a drive is not immediately available from stock due to a prior sale, most drive orders can be committed to ship within 48 hours. Customer Service will verify availability and shipment at the time of inquiry.

Standard ground freight is **not** included in the price, and expedited freight will be billed at actual cost.

Although TR200 accessories (e.g., LON card) are not included in the Quick Ship program they are normally in stock and available within the 48 hour “ship window”. Please inquire with customer service if you need accessories for a TR200 Quick Ship Drive. Extended warranty beyond the 3 year standard warranty, or any other service (e.g., start up) are not included in this program.

Ordering a quick ship drive for same day or 48 hour shipment is not possible using IPC online ordering/configuration system.
